

# VL Quantum Fellowship Program

## Frequently Asked Questions (FAQs)

### What is the VL Quantum Fellowship Program?

The VL Quantum Fellowship Program is a program that connects talented individuals from interdisciplinary backgrounds who have an entrepreneurial spirit and a lot of motivation. It offers them a space to work together and provides various opportunities for learning, networking, and project development. The program is focused on quantum technologies and aims to support fellows in developing their skills, knowledge, and ideas in this field.

### Do I need to be in Munich for the program?

Yes. The program is in person, we organize events, workshops and internships in Munich, although internships in other cities might also be offered.

### What is the Program Structure?

The program consists of workshops, an internship as a founder associate in one of our startups, an entrepreneurial project and involvement in the program's operations within a year. At the end of the program, the fellows with the most promising business cases will be supported for further development.

### What is the time commitment of the program?

We expect participation for a full-time internships for 6 weeks in the semester free period. During the project phase the time commitment will depend on your motivation, but at least 3 hours per week. For the involvement in the program's operations we expect a commitment of 2 hours per week.

### When does the next application phase start?

The next application phase starts the 22. September and ends the 31. October.

### What is the study background you look for?

We want a diverse spectrum of backgrounds because it helps to create an environment of open discussion and diverse ideas. Therefore, anyone interested in quantum technologies and applications in other areas are welcome.

### What is the topic of the entrepreneurial project?

We will suggest some potential ideas that you could work, however we encourage to work on your own ideas as well.

### Are there any fees?

No, the program is free of charge.

### Do you offer funding?

No, Venture Labs does not provide with funding resources.
